Learn about us

We are a company with **more than 180 years of experience** in the manufacture of stationery products. We pioneered the introduction of products who have changed the way you organise your time and tasks: the Integral system of ring diaries and our already classic Notebook with micro-perforated sheets with coloured subsections.

Today, **we continue betting on innovation** while relying on the same 5 principles:

-  **Design.** We connect fashion and design through our pieces of stationery, diaries, writing items, school accessories, and office and desktop accessories as well as a whole universe of gift products.
-  **Adaptation.** We evolve with our environment, creating products for all kinds of likes, activities and age groups.
-  **Quality.** Manufacturing high quality products using the best materials.
-  **Responsibility.** We look after our environment and guarantee the quality of our products and services. We have the widest range of recycled and recyclable notebooks on the market, meeting the needs of an increasingly eco-conscious world. We have also joined forces to fight against excess plastic in the oceans by each year expanding our range of environmentally-friendly products made from recycled polyester material from PET (RPET) plastic bottles.

We are integrated in the business group **APLI** and together we respond to the needs of our clients; with national and international product shipment coverage. Our corporate strategy, based on quality, innovation and service as well as commitment to people and the environment, has led us to be present in more than:

 **80**
Countries where
we distribute our products

 **5**
Production plants

 **6**
Subsidiaries

Environment

Committed to environment

At APLI PAPER S.A.U. group, of which we are a part, we are committed to ensuring our activities minimize their negative impact on the environment, aiming for maximum safety in our processes installations and services, paying special attention to protecting our staff, partners, customers and society.

Committed to our society

Through selective disposal of waste produced by our facilities, maintenance of our green area and immediate surroundings, respecting the limits established by current regulations on atmospheric and water emissions, and controlling our energy, water and raw material consumption, among other things.

Committed to our partners

Our partners comply with the strictest reforestation policies to obtain paper; we also work with transport agents and managers authorized by the Administration in order to ensure legal management.

Committed to our employees

Through their participation in company environmental awareness activities.

Committed to our products

Our product packaging is manufactured with recyclable material, in line with the 3R's ecological criteria: reduction, reuse and recyclability, adapting our packaging to the product to reduce the amount of waste produced. We also participate in the Spanish and German Green Dot waste management systems, while studying and improving our process in order to reduce their impact on the environment.

ECO-Stamps in this catalogue

Recycled

Product manufactured with materials recovered post-consumption.

Recyclable

The 99% of our products can be recovered and used again after consumption.

FSC®

Forest Stewardship Council®

Forest certification that promotes responsible forest management, not only environmentally but also socially and economically. The FSC® label identifies products that have been made with wood or wood derivatives from forests managed in accordance with this standard. Check out our range of FSC® certified products.

PEFC™

Programme for the Endorsement of Forest Certification Schemes™

Forest certification that promotes responsible forest management, not just environmentally, but also socially and economically. Products with this label promote sustainable management of forests.

Carbon Trust CO2

Certification that ensures that the product offers a superior performance in carbon emissions through its more intelligent use and selection of natural resources.

Safety, quality and respect for the environment in the manufacturing processes for our products and services are the means by which we aim to achieve our main goal and ensure the prestige of our company in our industry and in the business world in general.

To this end, we comply to the requirements of our integrated system for quality management, environmental and health and safety, whose goals are measured to ensure continual improvement in the system's efficacy.

How to recycled your diary?

The spiral is separated from the paper and the covers and is disposed in the grey container.

The paper and covers are recycled in the paper container.

We comply with enviromental, social and economic standards that ensure the protection and viability of forests.
